PROFILE

I am a dedicated and passionate frontend developer with a strong focus on creating innovative web solutions. With a solid foundation in JavaScript, HTML, and CSS, I enjoy turning designs into pixel-perfect, responsive websites. I thrive in collaborative environments, leveraging my creativity and problem-solving skills to deliver exceptional user experiences.

EDUCATION

Bachelor of Mechanical Engineering, *Universiti Teknologi Petronas*

2016 – 2020

TECHNICAL SKILLS

Programming language (JavaScript, Typescript, HTML, CSS, PHP)

Technologies (React.js, NextJs, Laravel, Bootstrap, Tailwind CSS, Express.js, MySql, Figma, Wordpress)

Version Control (Git, Github, Gitea)

PROFESSIONAL EXPERIENCE

Software Developer, *Masscode Sdn Bhd*

Aug 2023 – present

- Led the design and development of the frontend for the Majlis Bandaraya Seberang Perai eNilai website, ensuring a seamless user experience
- Leveraged a wide range of technologies, including HTML5, PHP, Laravel, Tailwind CSS, MySQL, and JavaScript.
- Achieved a significant improvement in website performance and user engagement by implementing responsive design and optimizing front-end code.

PROJECTS

Todo List App

- Developed a ReactJS web application for efficient task management.
- Implemented features such as task creation, editing, and deletion.
- Utilized local storage for persistence across browser sessions.

Kona Coffee Website

- Developed a visually appealing website for a coffee shop using ReactJS and CSS.
- Implemented an interactive menu and contact form.
- Integrated Google Maps API to display the location.
- Optimized website performance through file size reduction and lazy loading.
